Naval Building Limits Removed By Three Nations

U. S., Britain And France

ACTION RESULT OF JAPAN'S ATTITUDE

Death-Knell Of Attempt To
Stave Off World Naval
Building Race Is Seen

WASHINGTON, Feb. 17.—The United States has entered into secret agreement with Great Britain and France to wipe out all limitations on naval building. It was learned today on high authority.

The tripartite action is the Democratic powers' answer to Japan's defiant refusal to divide its naval program or agree to further disarmament.

The agreement between the three powers has been arrived at during private conversations which have followed receipt of Japan's reply to the powers' identical notes demanding information on reports Japan is building "super-battleships" of 40,000 tons, mounting 18-inch guns.

Naval Building Race Certain

The private agreement sounded the death-knell of the last attempt by the major powers to stave off a world naval building race.

Henceforth, the lid will be off and it will be every nation for itself—to build as many warships and as big warships as the nations' economy can stand.

The decision scraps the last naval limitations treaty—the pact of 1936 at London between the United States, Britain and France, from which Japan brusquely withdrew on a demand that the 5-5-3 ratio of naval strength established at the Washington conference in 1922 be abolished and she be given parity with the American and British navies.

Only one feature will be salvaged from the wreckage: the three democratic powers will continue to exchange confidential information on their building plans.

Report is made that sheep killing dogs run amuck in the flock of Frank DiCarlo, of the Enon Valley district recently, and killed three of the sheep. The dogs are being hunted.

Raining days at this season of the year are a boon to city firemen as the grass fire season has started. When it rains, the grass cannot be set on fire by mischievous boys and they get a respite.

Actual moving of the books of the city library to the new home at North and Mercer street, is about to be started. It will take several weeks to complete the moving. Library authorities announce it is probable that appropriate opening programs will be arranged for the new home. The former post office building has been remodeled so that it will provide an exceptionally fine library home for the city.

New Castle book readers are multiplying, and it seems so. It may be that growing maneuvers around the handsome new three Public Library make residents more book-conscious or it may be something else. For the sake of curiosity, though, notice how many downtown pedestrians are carrying books under their arms these days. There appears to have been an increase.

Add think's that make spring-semester-closer. Announcement yesterday of the annual Y.M.C.A. membership drive, opening March 29, and news today of a coming bird house-building contest.

Library Will Close On Friday Evening For Moving Period

After being located for 12 years, one month and three days in the building at the corner of Jefferson and North streets, the New Castle Free Public Library will close Friday evening, February 18, at 9 o'clock, to remain closed until the new building is occupied and opened at Mercer and North streets.

It is expected that the library service will be suspended for about three weeks. From Saturday on, the moving of books and furniture will go steadily forward until everything is in place.

Miss Alice Sterling, librarian, states that everyone who wishes to get books needed within the next

month is urged to get them at once. Books which fall due on and after February 19 will automatically be renewed at the library so that no fines will accumulate during those days. Ten books will be allowed to each borrower up until Friday evening.

In order to further accommodate borrowers, provision is made at each of the three branch libraries to issue books to any holder of a library card. As usual, the borrower may take four books from a branch library.

The building which is being vacated is owned by the library and (Continued On Page Two)

PHILADELPHIA, Feb. 17.—As the only living witness of the death of little Nancy Glenn and charged with causing it, Mary Keenan O'Connor took the witness stand in her own defense today after being denied a directed verdict of acquittal.

"I don't know why but for some reason or other I swung around and hit the youngster," she said.

"She just fell down. I felt her pulse and there didn't seem to be any. I felt terrible. I thought the child was dead."

That was the essence of her story, quickly told after Judge Joseph Sioane had denied her counsel's motion for a directed verdict of acquittal.

Formal denial of the motion broke her heretofore calm, casual, almost detached demeanor. When she took the stand she was in tears.

PARIS, Feb. 17.—Chancellor Hitler has won another battle in the endless struggle for Austria, but he has not yet won the country, and Premier Mussolini has not yet given it up.

The conflict between the two dictators still lies at Brenner Pass, leading from Italy into Austria, despite every effort to conceal it.

Hitler's newest triumph in Austria has not strengthened, but has strained, the Rome-Berlin axis. By his need of German help in Spain and by his desire to use Germany in his constant "war" with England, Mussolini was induced to give silent consent to the Nazis' "dry

Administration leaders drove for senate passage of the bill by Monday. An appropriations subcommittee, headed by Senator Adams (D of Colorado), began hearings on the bill behind closed doors. Called to testify were Aubrey Williams, acting works progress administrator; Arthur J. Altmeyer, chairman of the Social Security board, and Daniel W. Bell, acting budget director.

Senator Bone (D of Washington), questioned whether \$250,000,000 additional would be sufficient to take care of the needy during the next four months, after which funds for the next fiscal year will be available.

"I am making an investigation of the needs with a view to offering an amendment for a larger amount," Bone said.

WASHINGTON, Feb. 17.—President Roosevelt faced a final series of conferences today with financial and economic advisers preliminary to his departure tomorrow afternoon for Hyde Park, and a weekend "breathing spell."

At his press conference tomorrow, shortly before train time, Mr. Roosevelt is expected to make a pronouncement on price levels that administration officials hope will have salutary effect on the commodity market.

Meanwhile, one white house caller contended that the president through a series of moves during recent weeks, has presented business itself with another much desired "breathing spell."

This visitor conceded there had been no letter to anyone formally proclaiming an armistice between the new deal and business such as was written in 1936 to publisher Roy Howard—in fact predicted there would be none—but pointed to a succession of developments engineered by Mr. Roosevelt as proof the "breathing spell" actually was in effect.

These moves to reassure business were listed as follows:

During the past week, Japanese patrols have tried time and again to enter the sector. Each time they have been rebuffed by the marines.

Furthermore, Chancellor Schuschnigg retains the army, which in matters of civil war and revolt is decisive.

In Austria's post-war disorders, it was always the army which took control from the police and settled matters.

Counter-Movement

Vienna, Feb. 17.—A counter-movement to Reichsfuehrer Adolf Hitler's Nazification of Austria was launched by Catholic circles here today.

Plans were laid for a congregation of bishops shortly after Feb. 20, when Hitler is due to address the German Reichstag on the situation. The conference will discuss the possibility of unseating Chancellor Kurt Schuschnigg if he is unwilling to resist Hitler's demands.

At the same time, it was learned that Field Marshal Franz Jansa, chief of the general staff, had resigned in protest against the new Nazi regime established here at Hitler's demand.

Jewish circles were alarmed over the threat of events despite repeated assurances by anti-Semitic megalomaniacs, that the Nazis and communists leaders have pledged a "united front" against the Nazi steamroller.

It is not yet known, however, what price Il Duce asked for his seeming acquiescence in the Nazi reformation of Austria.

Martha Raye Is Figure In Two Damage Suits

Sensational Suits Are Filed By
Her Father, Peter F.
Reed, In Hollywood

(International News Service)

HOLLYWOOD, Feb. 17.—Martha Raye, wide-mouthed movie and radio singer, today was a legal pawn in two sensational damage suits filed by her father, Peter F. Reed.

In the first action, Reed asked \$150,000 damages from Peter Baumann, Miss Raye's manager, alleging Baumann had stolen the love of Miss Raye's mother, Maybelle Hooper Reed.

In the second action, Reed demanded \$50,000 damages from Baumann and Mrs. Reed, as well as an accounting of all Martha's film and radio earnings prior to her 21st birthday last August 27.

Long before Mrs. Reed was granted an interlocutory decree of divorce from Reed last March 2, Reed alleged Baumann broke up their home and finally induced Mrs. Reed to live with him. They even posed as Martha's parents, Reed alleged.

In asking an accounting of Miss Raye's income, Reed declared his daughter had earned weekly sums ranging from \$750 to \$2500 for a two-year period prior to her 21st birthday. He claims a 50 per cent interest in these earnings during Martha's minority.

Reed further alleged Baumann and Mrs. Reed defrauded Miss Raye and intimidated her into entering a divorce a few months ago from Buddy Westmore, whom she married about a year ago.

LOS ANGELES, Feb. 17.—Freedom was close today for Paul A. Wright, admitted slayer of his wife Evelyn and John Kimmel.

Found insane by the same jury which convicted him of manslaughter in connection with the sensational "white slave" tragedy, Wright may now face a hearing before a lunacy commission in which he will ask to be declared sane at the present time.

A hearing on his petition probably will be held tomorrow, and in the meantime Wright will remain under observation in the psychiatric ward of the General Hospital where he probably will be transferred today.

However, since his present sanity has not been questioned, and since Superior Judge Donald W. Bull who presided at Wright's murder and sanity trials, stated from the bench after the verdict that reports of psychiatrists, filed with the court, indicated Wright was sane at present, these further proceedings are regarded as merely a formality.

Thus, in a few days, Wright will be completely free.

Wright, who collapsed in court yesterday when the jury, which deliberated his sanity for 16 hours, returned its verdict, but he quickly recovered composure and embraced his father, Dr. J. J. Wright, Milwaukee dentist, and shook hands with his attorney, Jerry Giesler.

Wright, in the early morning hours of November 9, shot and killed his wife, the former Evelyn McBride of Detroit, and John R. Kimmel, an Illinois operations manager, formerly with General Motors, who he claimed he encountered them in an unlicensed embrace on the piano bench in the Wright living room.

He claimed he did not know what he was doing at the time.

KNICKERBOCKER DECLARES HITLER HAS NOT WON YET

(Continued From Page One)

vealed the true meaning of Hitler's army purge. We know now that one of the principal reasons for dismissal of Gen. Werner von Fritsch, who formerly was Germany's commander-in-chief of the army, was because he and other members of the general staff were opposed to use of the German army against Austria. Hitler not only succeeded in dismissing the most powerful officers of the German army with impunity, but thereupon proceeded to carry out the very program against which they protested.

Threat of Armed Force Wins.

For it was a deliberate threat of armed force that Hitler won his victory over Schuschnigg. Under the guise of maneuvers, Hitler moved a section of his army to the Austrian frontier and the result showed that neither France nor England would move a finger to save Austria. Hitler's success proved to the German army and Nazi party once more

that "the Fuehrer is always right," a point he demonstrated once before when he reoccupied the Rhineland over the protests of his general staff, which told him they would have to retreat if the French marched into the Rhine.

Now the conservative German army men have been given another impressive demonstration that Hitler knows what he is talking about, and it is believed the radicals of the Nazi party will be encouraged to believe they now can do as they like in Central Europe.

Czechoslovakia Apprehensive. Czechoslovakia is most apprehensive because she now sees how little her allies will risk to aid her in the event of trouble with Germany.

The Czechs are skeptical as to whether Schuschnigg and Skubl can hold the Nazis in check and believe absorption of Austria is now merely a matter of time. When that happens, they consider, Czechoslovakia's position, already lamentable, will become disastrous.

What interests Europe most now is to observe what Mussolini will get from Hitler as the price of Il Duce's unhappy silence when Schuschnigg, in the emergency, vainly tried to get him on the telephone.

London feels that whatever it is, it is bound to be bad news for Britain. British pessimists think Hitler may have promised to back Mussolini to the limit in Spain and to hold off France and Britain if Italy wishes to send another army to help Rebel Generalissimo Francisco Franco.

NEW EMERGENCY RELIEF MEASURE BEFORE SENATE

(Continued From Page One)

was an amendment by Rep. Latham (D. of Texas, to deny relief to aliens. While aliens theoretically are denied relief under existing law, the Latham amendment would require investigation of each applicant to see that he or she is not an alien.

Since President Roosevelt specifically recommended \$350,000,000 in expenditures were that would be the amount carried in the bill when finally passed by congress. While some senators said they felt the sum was too low, others argued that with the Social Security board and other relief agencies caring for many persons, the appropriation would be too large.

The \$250,000,000 was asked to help carry the relief load until June 30. With this supplemental allotment, the WPA plans to take care of an average of 2,300,000 needy applicants until June 30. There are now about 2,200,000 persons on WPA relief.

The number will have to be reduced to an average of 1,800,000 for March and to 1,500,000 by June 30, unless more money is available, WPA officials pointed out.

FACTS ABOUT INCOME TAX

DEDUCTION FOR INTEREST

Amounts paid or accrued within the taxable year 1937 as interest on indebtedness are deductible, with certain exceptions, from gross income in determining net income.

Such items include interest on borrowed money to defray personal expenses, and on money borrowed for the purchase of real or personal property. If a person owes money on a lien or mortgage note on his home, the amount of the interest may be deducted. Indebtedness, however, need not be evidenced by lien, judgment, or mortgage to make the interest on it deductible. Frequently indebtedness is evidenced only by a note.

Interest paid on indebtedness incurred in the purchase of obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer, the interest upon which is wholly exempt from Federal income tax, is not deductible. Interest paid on loans on life insurance policies is deductible provided the amount of the loan is not used for the purchase previously referred to in this paragraph.

Interest paid on behalf of a friend or relative where there is no legal obligation on the part of the payer is not deductible. In such cases the amount is the same as a gift.

As interest paid is deductible, so interest received is taxable. All such amounts, including interest received on bank and savings deposits, must be included in the taxpayer's return of gross income.

Award Compensation To Young Caddy At Trenton, New Jersey

(Continued From Page One)

TRENTON, N. J., Feb. 17.—Moses Bird, Jr., entered the junior Hall of Fame today by qualifying as the only small boy who ever climbed an apple tree on somebody's else's property and was paid for it.

The state supreme court upheld a compensation award of \$10 per week to young Bird until he recovers from injuries received when he fell out of an apple tree. Evidence was that Bird, a caddy, was ordered by the caddy master of a country club to climb the tree and pick apples.

If you're wondering why your bowels don't work right—stop and think about what you eat. Bread, meat, eggs and potatoes. All good nourishing foods—but all concentrated in "bulk." And you need "bulk"! Some food that forms a soft, spongy mass in the bowels—helps them move.

If it's this lack of "bulk" that's causing your constipation, Kellogg's All-Bran is just what you need. It soaks up water and this softens the stool. And this soft stool helps your bowels move. In addition, All-Bran gives you Nature's great intestinal tonic, vitamin B. Eat this crisp, crunchy cereal every day, drink plenty of water, and enjoy happier days. PATRIOTIC BANQUET IS LARGELY ATTENDED

Outstanding in every detail, was the banquet served Wednesday evening at 6:30 o'clock, to guests numbering eighty, at the Modern Woodmen hall, when the Sons of Veterans, together with other organizations, gathered for the annual sharing of the G. A. R. Ladies, Daughters of Union Veterans, Sons of Veterans Auxiliary, the Relief Corps and the host group, Sons of Union Veterans.

A distinguished guest was the commander, D. M. Clark, of Mt. Jackson, the only comrade able to attend.

The long tables were most attractive in the hues of red, white and blue, suggestive of George Washington and Abraham Lincoln's birthday anniversaries. The patriotic theme was developed throughout, making a colorful background for the occasion.

Following the serving of a sumptuous banquet, a program featured, with Charles Schetrom, presiding in the role of master of ceremonies. He introduced Col. W. W. Stevenson, who was the main speaker. The latter centered his topic on the "Lives of Lincoln and Washington," which was most inspiring. Another speaker who held close attention with her address, was Bertha Shortt, of Sharon, past department president of the Daughters of Veterans. In addition, fitting remarks were heard from the presidents of each organization represented.

Lending a bit of variety, several vocal selections were contributed by Mrs. Eckert at the piano. A reading by Mrs. Rilla Risher was followed by a short talk on "Civil War Events" by comrade Clark. In conclusion, the assemblage joined in singing "America" and the "Star Spangled Banner" with piano accompaniment.

Participants were present from Youngstown, O. Sharon, Ellwood City and Mt. Jackson, besides a large representation from the hostess city, New Castle.

The general committee responsible for the success of the evening composed Kate Stanley, Mary Myers, Martha Fox, Lula Schetrom and George Partington.

HELIUM FOR GERMANY

POSSESSOR of the only known supply of helium, which statute law defines as essential to the national defense, the United States pays a tribute to the indomitable scientific genius of Germany by sanctioning export of helium gas for the perpetuation of lighter-than-air service between the two countries. Destruction of the mighty dirigible Hindenburg by explosion at Lakehurst last year with a loss of 36 lives was enough to daunt German promoters of this type of airship, but the acquisition of non-inflammable gas from America changes the picture entirely.

Licensing by our State Department of the export of 2,600,000 cubic feet of the gas to the German operating company is a friendly international gesture. It is characteristic of a nation that is prime exemplar of the theory that one of the best ways of maintaining world peace is by international trade agreements. Consequently there is planned for this year, beginning late in the spring, a series of 18 round-trip flights to America by a sister ship of the Hindenburg.

To the United States there is no semblance of menace in the new arrangement. None of the gas can be employed for military use. Dirigibles using any henceforth to be exported or supplied here will be strictly in German-American service, being restricted from visiting any foreign land. Restoration of lighter-than-air service between Germany and this country, made possible only by our granting a supply of material of which we have a monopoly, ought to impress the Germans with our good will. This is particularly true because there is not a scintilla of pressure on us to find a market for a cubic foot of this gas.

PETITIONS

At an eastern university, fustlers recently obtained 115 signatures on a petition which at the beginning, proposed elimination of final examinations, and, at the end, pledged the signers to spend five years in a chain gang.

The stunt had been pulled before, of course, possibly with more signatures on more ludicrous petitions.

Coming now as congress gets down to business, however, the university incident has the effect of casting doubt on the worth and sincerity of the thousands of petitions and memorials which pile up daily on congressional desks.

Something will have to be done to disprove the theory that "most anybody will sign most anything" before congress will take it very seriously when citizens indulge in their constitutional right to petition for redress of grievances.

THESE APPRENTICES WILL LEARN A LOT

There are several reasons for watching closely the fruits of the fifteen University of Pennsylvania upper-classmen, chosen as "public service apprentices," who will study at first-hand the actual workings of government, concentrating mostly on Philadelphia and Pennsylvania's state administrations.

They are in for an enlightening if not liberalizing education. Yet, if they are fair about it, they will not over-act at any essential weaknesses of the principles of democracy they find. It is still a good apparatus if worked right, this of-the-people, by-the-people, for-the-people system. When it doesn't work—when one man or a half dozen or fifty gain control and use it selfishly—the apathy of John Q. Public generally is to blame. "The fault, dear Brutus," quoth Cassius "is not in our stars, but in ourselves that we are underlings." There seems to be an analogy in politics.

WOMEN AND HATCHETS A POOR MIXTURE

After all, there should be some way to deal with Mrs. Irene Kite without jailing her, yet jail her they did just for going around her home town of Alton, Illinois, and breaking up slot machines with a hatchet in true Carrie Nation style.

The law is unfeeling. A pretty young woman can break a man's heart, or lay open his head with a sash weight, or do mischievous things to his midriff with a pistol, and sometimes go unscathed—or perhaps with only a few scratches. But put a feminine crusader on the warpath with a hand-axe and the law mutters about precedents and jurisprudence and courts. Jail doors open.

There's a possible reason, of course. Suppose the world's women, with or without hatchets, all started in at once to clean things up and eliminate illegalities and wrong-doing in general. Spring housecleaning would be tranquil by comparison. It might become a manless world in no time. Women should go slow on the hatchets.

TRIUMPH OVER FEARS

This letter can be of help to expectant mothers:

"Dear Mr. Myers: Since hearing from you on Nov. 18, 1936, I've wanted to let you know how much you helped me, but I am usually almost too busy to think. You suggested my writing to you if I was successful in overcoming the difficulties. I had written you a rather hectic letter, full of fears and worries over my impending ordeal of confinement. I already had two baby girls, and the memory of my horrible pain at their birth was frightening me, hopelessly, and I asked you if you knew of any books or articles that would help. You knew of none, but your kindly, sympathetic and understanding answer was a turning point in my life.

"I cried over it, but with tears of joy instead of the usual tears of self-pity. For I suddenly knew that self-pity was fast becoming my ruler. You spoke of the aesthetic I should receive and did, but in my imagination I had already endured complete misery before I was administered to and the doctors were simply not interested. Hypnotism or any other help only made me wilder.

"You made suggestions, which I followed, such as thinking of my two lovely girls, and praying.

"First of all, however, I deliberately ridiculed my feeling of self-pity. I realized how sorry I was for myself, and, as my husband is one of those 'strong' silent men who cannot express sympathy, I was making up for it myself, and not getting anywhere.

"Then I tried to put away all thoughts of the event, except to plan, and to think how I would have the baby. I found, to my surprise, that it can be done, by self-will and positiveness, qualities which had been lying dormant in me waiting to be used.

"For my nervousness and restlessness, I substituted a calm, rational outlook on life, and discovered how unhappy my two sweet little girls were becoming. They had been crying along with me. . . . I knew I would have to summon all my powers when the time came, so began to build on what I had, and up the hope of receiving help from others, so began to help myself.

"You suggested prayer, and I prayed and went to sleep at night peacefully, where before I had lain awake hour after hour, going over every agonizing moment of past labor pains. The time came and I was ready. . . . My sense of humor was topmost, my mind was clear, and I ordered myself not to become panicky. I told myself I would make the most of these few hours to grow mentally and spiritually. . . .

"My rewards were that my very soul was lifted above my tortured body, and the pain was a dream. Before I could believe it, all was over and I was holding a beautiful little boy in my arms.

"If I seem too emotional, perhaps you will, in your great understanding, make allowance for me."

Never mind, my good man," he said, giving the fellow a friendly tap on the shoulder. "I started as a dishwasher and now I'm general manager."

"And I started as general manager, and now I'm a dishwasher," was the reply.

Hints and Dints

Sun sets tonight 5:38. Sun rises tomorrow 6:50.

At a high-toned musical concert in Northampton, Mass., the programs were printed on blotting paper so that there would be no rustling of paper during the concert. Nothing was done about the half-hour time-up which always precedes the music, and which as a rule sounds anything but musical.

TOP TO BOTTOM
The newly-appointed general manager of a group of large hotels was on his first inspection tour. In the kitchen of one of the hotels he observed a particularly gloomy dishwasher.

"Never mind, my good man," he said, giving the fellow a friendly tap on the shoulder. "I started as a dishwasher and now I'm general manager."

"And I started as general manager, and now I'm a dishwasher," was the reply.

The World At A Glance

Health Is National Problem.
Columnist Speaks His Thoughts.
Live In Terror Of Illness.

By LESLIE EICHEL

Central Press Columnist

WHEN THE writer of a column is ill, he has to write his column anyway, or find a substitute. Most of the would-be substitutes are feeling none too well themselves. Which brings us back to a question recently in this column: question of several weeks ago: Isn't health a national problem? Isn't medication a matter for government care, to be paid for through a slight tax? Not that we need such aid (at the moment). But here is why the thought comes to us:

We go to a very good young physician in a virtual tenement district. This modern young man applies his knowledge literally to hundreds of poorly paid workers, who through his office.

These folk at least get the best of treatment (and they know it), but when one sits in that waiting room scanning their faces, he sees the misery and the suffering and the hopelessness that have etched their lines.

"It ought not to be," we remarked once to this physician, who gave much of his time to those who must delay payment or cannot pay at all. "The strength of a nation, the future of a nation lies in the well-being of its people."

But the physician, even in the midst of this misery, was not for "permitting socialization by the government."

You he would not then go payless, as often he must now. And he would not be telling us stories of people coming to him "too late" because the few funds they had were needed for bare existence.

IT WOULD BE FOREVER
Physicians are correct in their assumption that if what they term "socialized medicine" should arrive, it never would be abandoned. One merely has to interview people to ascertain that.

It is the same with the Federal Labor Relations Board. During the agitation against it by interests opposed to it, this writer has received a virtual avalanche of suggestions on "what to say" to defend it.

This column has been "warned" that not only have such large employing interests and senators been saying "untrue and malicious things" against the board, but that "underhand movements are afoot" to hamstring the board through cutting appropriations.

We have written of this, but some readers of this column still are not satisfied. Why? The board is looked upon by employees (and many of them belong to no union) as their sole "security."

(International News Service)

Declare Lewis Notifies Earle
That Kennedy Is To
Be Candidate

(International News Service)
HARRISBURG, Feb. 17.—CIO chief John L. Lewis has informed Gov. George H. Earle that he will run for governor, regardless of action taken by Democratic organization stakeholders. It was authoritatively reported here today.

In a telephone conversation from Washington, D. C., Lewis reportedly assured Earle of his support for the U. S. senate if the chief executive exercises a "hands off" policy in the gubernatorial race.

This latest development in the Democratic situation came to light, as party leaders arrived here for what was expected to be the most important state conference held thus far. Although definite action was not expected until late today or tomorrow, a preliminary meeting attended by State Democratic Chairman David L. Lawrence, Matthew McCloskey and John B. Kelly, the latter Philadelphia co-chairman, was held last night in a local hotel.

Questions Use Of Larger Navy

Major General Hagood Says
National Defense Being
Made Football Of
Politics

ONCE CALLED W.P.A. CHECKS STAGE GELT

Central Press
Washington Bureau
602 Times-Herald Bldg.
By CHARLES P. STEWART
Contra Press Columnist

WASHINGTON, Feb. 17.—Major General Hagood cannot very well be disciplined for telling the house of representatives naval affairs committee, as he did recently, that in his opinion America's national defense is being made the football of politics.

The general practically is punishment proof. In effect, he is in the position of an individual who already has been punished and who then does something else that the executive would like to punish him for; the same person's head can't be amputated more than once in succession.

PREVIOUS PUNISHMENT

Hagood is the identical general who, as a witness before an earlier congressional committee, referred to WPA checks as "stage money". For having done so he was militarily suspended, which caused quite a scandal, on the ground that it was unfair to penalize an army officer for testifying conscientiously, according to his lights, under a subpoena which he was bound by law to recognize.

Indeed, the row was such that he presently was reinstated.

However, there are "more ways of

killing a cat than choking it with cream." Though reinstated, the general was transferred (amounting to demotion). Next he was retired ahead of his time.

NO "RETALIATION"

Of course these readjustments may have been merely a series of coincidences. Nevertheless, short of killing him literally, or at least cutting him off the retired pay, there is not much more than superior authority can do in retaliation for his latest remarks before the representatives naval affairs committee.

And it would not look well to be quite that Nazi-like.

WHERE TO BE USED

Gen. Hagood found no special fault with the pending \$800,000,000 navy building program.

He agreed that, perhaps, an \$800,000,000 American navy is needed. What he asked was:

WHY is it needed, and HOW is it going to be used?

We all know that the international outlook is bilious. Possibly that answers the question, "Why?"

But, "How?"

Are we creating strength to keep us neutral? Or are we creating it to enable us to recommend ourselves as a formidable ally to other powers that we may chance to consider in the right?—when the mix-up does come.

UP TO CONGRESS?

Gen. Hagood does not want to leave this issue to the president to decide.

It is a constitutional principle that the president cannot DECLARE war; the declaration must be congressional. Still, it is a common-place that presidential policy generally is such that, when the time comes, congress has no choice. Basically, constitutionally, it is up to congress.

"Well, then," urges Gen. Hagood, "let congress assert itself before the last minute."

"Let the president tell congress what his aims are," demands Senator Hiram W. Johnson.

"No," answers Gen. Hagood, in effect, "let congress tell the president what he can do."

The general is a heap-sight better constitutionalist than most of the legislators on Capitol Hill.

BRINGS RESULTS

New door put on the city hall police garage by WPA employees some time ago has been beneficial, the jail and garage being kept very warm. Previously it was decidedly cold place in the garage and jail.

YOUR EYESIGHT SPECIALIST

recommends GOOD LIGHT

The average person is prone to take his eyes too much for granted.... Only when serious trouble develops does he consult a specialist. This is unfortunate.... We have only one pair of eyes... they must last a lifetime... and every effort should be made to protect them. Since in the care of eyes, an ounce of prevention is worth a pound of cure, we should care for our eyes on a systematic basis... year by year... as we do our teeth and general health.

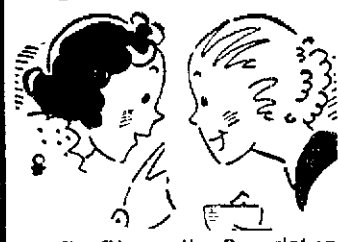

Good Light Does Protect Eyesight

Of course it doesn't correct defective vision—that's a problem for your eyesight specialist... but, as he will tell you, it does help to prevent damaging eyestrain.

outcome of the attacks on the labor board and the charges of "communism" leveled at the "liberal maritime union," but if underground opinion of the worker means anything, the attacks will fail eventually. Men are becoming very determined concerning "security."

MUCH TO LEARN

But to return to medical science. We often speak with our friend, the physician-surgeon, over the fumbling by medical science, instead of a co-ordinated march forward. He, himself, is a skeptic of the much-advertised "progress."

Why is medical science stumbling? Why are its achievements gained by so much personal sacrifice on the part of medical men who give their life to this work for humanity? Why ought not the government be responsible? Doesn't a government owe this not only to its people, but to its medical heroes?

And wouldn't life be much easier for its doctor-friend in the tenement district and his multitude of patients, who all too soon may become liabilities to the community?

commissioned the steam-propelled Plunger, built by John F. Holland.

On Other Feb. 17th: 1621—Miles Standish was made captain and military leader of the Plymouth colony. There is no basis of fact for Longfellow's celebrated "Courtship of Miles Standish". He summoned Barbara, sister of his wife, from England to become his second wife, a full year before the marriage of John Alden to Priscilla Mullins.

1673—Jean Baptiste Poquelin, known as Moliere, France's greatest dramatist, died at 51 of an illness that seized him while he was playing in "The Imaginary Invalid". Because he was an actor as well as a dramatist, he could not be given Christian burial and his body had to be placed in an unmarked grave.

1856—Frederic Eugene Ives was born on a Connecticut farm. His father was exasperated with Fred's tinkering around with photography and tried to end it. But Fred's continued tinkering enabled him to invent, when 22, the half-tone engraving process that enables newspapers to publish photographs.

1905—A rag doll had a state funeral in St. Petersburg. There was

so little left of Frank Duke Sergius, uncle of the czar, after he was hit with nihilist bomb, that a proxy had to be burned instead. The thousands who participated in the elaborate ceremonies didn't know it was a dummy they were honoring.

25 Years Ago Today—Oregon set up a welfare commission, the first of its kind in the country, to administer its minimum wage law. Although Massachusetts passed the first minimum wage act, Oregon was first to put one into effect.

FEWER DOG COMPLAINTS

Calls from residents stating that dogs are running at large have not been frequent recently as they were two weeks ago because, no doubt of the vigil of police and the dog-catcher. Dogs are not allowed to run-at-large, according to city police authorities.

Elks' Ex-Rulers Banquet; Lodge Hails Anniversary

New Castle's Elks lodge doubled up its celebrating last night when it combined its annual Past Exalted Rulers' Night festivities with its National B. P. O. E. 70th anniversary night observance.

The banquet of the former rulers of the lodge is a traditional yearly affair, and last night's reunion was attended by 16 men who once administered Lodge 69 activities.

The grand lodge's 70th anniversary was the theme of the evening's regular lodge meeting, over which 10 former rulers presided.

Re-election of Harry Alexander to the presidency and Abe Levine to the secretaryship of the Past Exalted Rulers' association headlined the short business session of the one-time lodge rulers which followed dinner.

Later, in the lodge room upstairs, Mr. Alexander and his group took over the lodge chairs and conducted the program while eight candidates were ceremoniously inducted into the fraternal order. The present lodge officers, headed by Exalted Ruler Edmund B. Connelly, who was the only guest at the past rulers' dinner, had opened the regular meeting and then retired as C. W. Herman Hess moved into the exalted ruler's chair and others took assigned posts.

Past rulers in the chairs besides Mr. Hess were Abe Levine, an esteemed loyal knight; Bertram Davis, esteemed leading knight; Walter C. DeArment, esteemed lecturing knight; Jacob Cosel, secretary; C. LeRoy Hughes, now of Pittsburgh, treasurer; S. J. Kleckner, rylor; Clark H. Buell, esquire; Edward J. Ryan, chaplain, and Benjamin Agnew, inner guard.

Exalted Ruler Connelly, present head of the lodge, gave the Elks traditional 11 o'clock toast.

A social period followed the meeting.

Past exalted rulers attending the dinner were Mr. Alexander, Mr. Levine, Mr. Cosel, Mr. Hess, Mr. Ryan, George W. Thomas, Mr. Kleckner, T. Earl Dukes, Dr. W. Fulton Jackson, Mr. DeArment, John Hite, Mr. Davis, Mr. Hughes, Mr. Buell, Mr. Agnew and Louis G. Genkinger.

Electricians Start New York Strike

Fear Walkout May Tie Up Rockefeller Center Buildings In New York

(International News Service)

NEW YORK, Feb. 17.—A strike which started with a walkout of 50 electricians threatened today to paralyze the nine huge buildings comprising Rockefeller Center, virtually a city within a city. Pickets paraded the group of structures as union officials announced that 300 plumbers, tinmiths, steamfitters, elevator maintenance men, painters and carpenters had joined in the walkout.

An effort to halt construction on the new Associated Press building was made by union leaders.

Elevator service was being maintained by regular operators, but the menace of a complete leap was seen in a pledge of cooperation by James J. Bambrick, president of a building service employees' union local.

The threatened elevator strike would maroon office workers in the 70-story RCA building and other towering structures in the Center, including the British and French buildings, the International building, the RKO building and the Time and Life building.

It would cut off the famed Rainbow Room, highest night club in the world.

Officials said there was no immediate danger of the strike affecting the Radio City Music Hall, electricians in the theatre being members of a different local. The Movie House Electrical Workers and the strikers are all members of the Central Trades and Labor Council, however, it was pointed out.

The electricians, members of Local 3, International Brotherhood of Electrical Workers, an A. F. of L. affiliate, charged that ten members of their union had been discharged unjustly.

Crusader Continues Sermon Series Here

Story Of Woman Of Samaria Told By Evangelist Tubby Last Night

Evangelist C. S. Tubby spoke Wednesday night at the Pentecostal church on the subject, "Five Husbands" and his text was taken from John 4:18 where Christ said: "thou has had five husbands and he whom thou now hast, is not thy husband."

Mr. Tubby dwelt on the story which the Bible weaves around the text which he had chosen, and he pointed out the splendid wisdom of Christ as he dealt with the woman of Samaria, "the painted woman." She was a harlot, the evangelist reminded the audience, "but I'm glad to be able to say one thing and that is this, that Christ was interested in that woman and he did her the honor of preaching a whole sermon to her, and she was converted."

Tonight Mr. Tubby speaks on "Noah's Day Repeated." This will be a prophetic message.

Lincoln-Garfield Reunion Tonight

Former Students To Gather In Recreation Hall In Grove Street

In the recreation hall on Grove street tonight at eight o'clock, the Lincoln-Garfield Association will hold its annual mid-winter reunion. From Pittsburgh, Alliquipp, Sharon, Cleveland, Youngstown and half a dozen other cities some of the old boys will be back to meet with the local men who attended the school between 1900 and 1911.

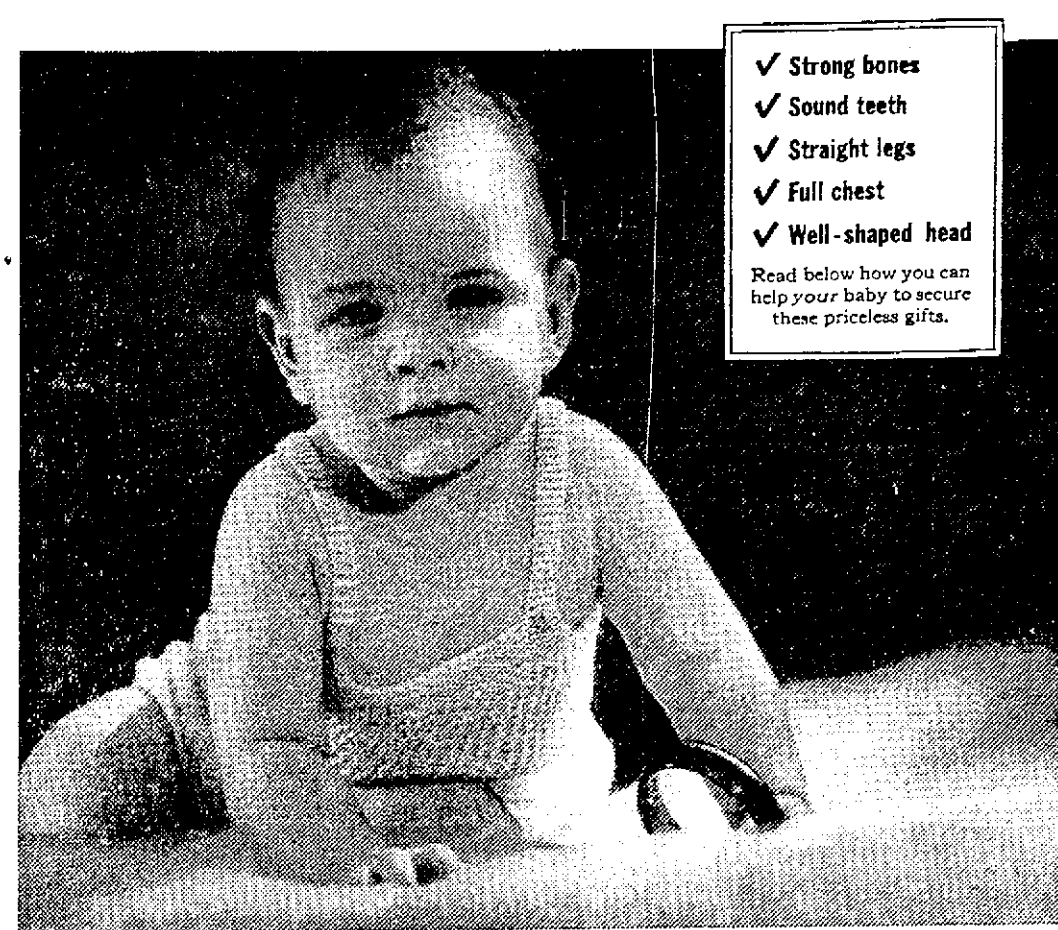

President William E. Trick will preside tonight and will conduct the annual election. A lunch will be served and a smoker will follow. Each year has seen the attendance at the mid-winter reunions increase and tonight's party will be no exception it is thought.

Happenings And Items Of Interest At Big Tin Plate Plants Here.

APPRECIATION
Now that we have followed the manufacture of the plate through the various processes from entry of the bar into the hot mill to the final heading of the plate into railroad cars, we wish to take this opportunity to thank our friends in all of our departments for their fine contributions which have been a clear and cheerful analysis of the operations in their respective departments. Our contributors spent much time and thought in trying to give a clear outline of their part in the manufacture of our product. These boys are proud of their part in the work, and also of their safety records—many of which are outstanding in the industry.

FIFTY YEARS AGO IN STEEL
Power of the elements and the law of gravity conspired to keep the town of Bowling Green, Ohio, from becoming a steel-making community in 1888.
Citizens of the town had offered a bonus of a rolling mill could be built there by a certain date, and a few pioneers from nearby communities began to construct a plant. First a storm blew down the partially-erected building, then the breaking of a carriage leveled it again. With two strikes against them, the owners abandoned the project and sold the machinery.

SAFETY IN WINTER
While the present winter to date has been rather mild, and we have heard of very little if any frost bites, it is interesting to note what steps should be taken toward the proper treatment of frost bites, which to some of us is rather amazing as we thought the exact opposite was true.

The experience of many Arctic explorers has demonstrated clearly that rubbing after freezing has taken place is not the proper treatment. Rubbing with snow is especially bad. The frozen tissues are bruised and torn, and gangrene is very apt to result. Gently cover the frozen part with the hand or other body surface and the part is thawed and circulation is re-established. If a hand is frozen, hold it next to the skin in the armpit or between the thighs, or the frozen part may be thawed very gradually in cool air or cold water. If this cannot be done, cover the part with extra clothing until thawed. Do not expose to hot stove, fire or radiator for some time, as severe pain or even permanent damage may result. (U. S. Steel Safety News.)

BOWLING
Last Thursday evening Raymond (Mike) McBride made his last ap-

pearance with his team on the bowling alley. Ray has been "up there" for many years in his bowling, and he kept true to form that night by rolling 247 in one game and a total of 597 for three games.

After receiving a wallop on the bowing alley recently at the hands of the girls bowling team from the office, he has recuperated to the game. We feel that the boys in the game interesting practice to make two of our star girl bowlers, Miss Betty Voynick and Miss Mary Duda, are entering the bowling tournament in Pittsburgh for women bowlers this week. We wish these girls all the luck in the world.

FRIENDS DEPART
There comes a time in life when all good friends must part. The new giant Irvin Works on the banks of the Monongahela river is now shaping into form for production and, consequently, is reaching out for our capable men. Two popular young men called this week were Raymond H. McBride, Assistant Works Auditor and David C. Brown, Shipper of Shenango Works. Both of these boys were given a grand send-off by their co-workers in the office, each being presented with a beautiful traveling bag. The presentation speech being given by Warren Weide in his own inimitable style. Brief acceptance talks were given by the recipients, being at a loss for words at the prospect of leaving after so many years of close association. Ray (or "Mike" as he is better known to us) has been appointed Assistant Works Auditor at Irvin Works and will be associated with our friend and former New Castle boy, Paul Marquis who is Works Auditor. David C. Brown, or "Dave," will serve in capacity of shipper at Irvin Works.

Succeeding R. H. McBride as Assistant Works Auditor at Shenango Works is B. R. Richards, Assistant Chief Accountant.
We wish all these boys the best of luck in their new undertakings.

A VALENTINE
In the humorous vein of Valentine Day, the writer stopped this one going over the desk.
"Who takes the pleasure out of life and makes existence bearable? Who'll fire the real good looking one, because she cannot spell. Who substitutes a dictaphone for cheek-tinted her?
The penny chasing, dollar wasting Industrial Engineer.
The above is offered with apologies to our good friend Bob O'Neal.

NOTES
J. F. Barrett, chief nurse of Shenango Works, underwent a serious operation last week and we are most pleased to learn that he is convalescing nicely.
Thompson Abernathy, apprentice in the structural shop, is in the hospital for treatment of sinus trouble. Russell Lennig and George Komare have left to take up their new duties at Irvin Works.

Delinquency Of Youth Will Be Studied Here

Meeting Is Called To Form Organization To Curb Delinquency In City

CIVIC LEADERS ARE INTERESTED

Plans have been made for a meeting to take place in the Y. W. C. A. on Wednesday evening, February 23, for the purpose of creating interest in an organization to curb delinquency among the youth of New Castle.

Various civic clubs and organizations interested in this problem, together with officials of the WPA Educational and Recreation program have pledged their support to the movement and will have representatives attending this meeting, but any person who is interested in the subject is invited to attend, backers of the movement state.

It is the hope of those who are behind the project, that an organization will be developed which will represent every section of the city, so that problems affecting particular districts can be taken care of by persons residing in these districts. One of the speakers will be J. W. McGowan, of Pittsburgh, assistant state director of the National Youth Administration for Pennsylvania. Mr. McGowan is a former juvenile court judge and knows the problems of youth.

GRASS FIRES ARE CAUSE OF ALARMS

City firemen were called out twice Wednesday afternoon for grass fires in the vicinity of the old Sherrago Valley hospital on North Beaver street, on Patterson avenue.

They were also summoned to South Mill street, when the anti-freeze boiled over in the auto of Dave Riteney, igniting and causing damage to the car of around \$10.

Mrs. Martha Wimer of Court street, who has been confined to the Jameson Memorial hospital for the past two months, is reported to be showing steady improvement, and is now allowed up a little each day. It is expected she will be able to return to her home within two or three weeks.

Jack Griddle and Dave Clements representing labor organizations appeared before city council today and advocated that council arrange for a preliminary survey in connection with a housing program here. They expressed the belief that a survey would show such a program to be feasible.

Council adopted the motion of Councilman Joseph D. Alexander to the effect that council conduct an examination to ascertain the feasibility of a preliminary survey. Council then adopted an amendment offered by Councilman W. H. Dunlap stating that this examination be conducted by council and city employees.

No money will be required for this, it was pointed out.

Working On Plan
During councilmanic meeting at the city hall today, council through Mayor Charles E. McGraw, told Thomas George of the Workers' Alliance that the city had not allowed a proposed repaving program for Cascade street to drop. Mayor McGraw said city officials and employees were working toward this end.

Motor Bus And Car Operators Banquet Guests

Twenty One Local Operators Have Clean Safety Record For Past Year

R. N. GRAHAM TO DELIVER ADDRESS

T. C. Moore, superintendent of the New Castle Electric Railway company, will lead a solid delegation of New Castle street car and bus operators to Youngstown today to attend the annual safety banquet of the Penn-Ohio Transportation system.

Every one of the 28 local operators went to the banquet, which was held at the Hotel Hamilton. The banquet was a success, and the operators were well entertained. The banquet was held at the Hotel Hamilton, and the operators were well entertained.

At Youngstown the New Castle group will join the operators from Youngstown and Sharon. In all, 24 out of a total of 27 operators on the railway and bus lines of the three cities, accompanied by their wives, will participate in the celebration as a result of each having at least a full half-year of operation free from a chargeable accident.

Of this number, 162, or 60 per cent, of the 268 in the service throughout 1937, went the entire year without an accident charged against their records. New Castle's records were the best for the year, 21 out of the 28 operators having clear records throughout 1937. This record was

AROUND CITY HALL

Dr. William L. Steen, health officer for the city, today reported only one new case of scarlet fever had been made known to the health bureau during 24 hours. He warned, however, that he does not expect this condition to continue and said he looks forward to more cases being reported.

In fact, Dr. Steen said that now is the time for control measures to be adopted and already has communicated with school and church officials to join in his request to parents to examine the proper precautions to prevent a possible epidemic of scarlet fever.

It was reported that school authorities will have printed 10,000 pamphlets to be delivered by school pupils to parents, notifying them as to what precautions should be taken. Dr. Steen further added that if the head of the household is on relief and a physician is needed the county will pay for the treatment.

City Clerk C. Ed. Brown receives many requests from persons residing elsewhere. The latest request he received was from John Downing, Pittsfield, N. H., who asked that Brown make a search for a copy of the New Hampshire man's birth certificate. According to Downing, he was born here about 1862 and when 12 years old left the city. He travelled practically all his life with Barnum & Bailey circuses, according to the letter received by Brown who is endeavoring to locate the data requested.

S. F. Dobrowski, referee, eighth district, Bureau of Workmen's Compensation, Department of Labor, State of Pennsylvania, will conduct compensation hearings in council chambers, city hall, Friday, according to a bulletin received in city hall.

It is likely that either today or within the near future, Councilman Joseph D. Alexander will present to council a communication received from officers of the retail merchants here that they are opposed to carnivals appearing in this city.

P. R. R. Income Off, 1937 Report Shows

Year-End Freight Drop, Mounting Costs Pare Profit 13.3 Per Cent

Sharp declines in the freight traffic of the Pennsylvania railroad in the last four months of 1937, together with steadily advancing operating costs, more than offset traffic gains made earlier in the year, so that results of the full year's operations show a decrease of \$11,179,666, or 13.3% in net railway operating income as compared with 1936.

The company's ninety-first annual report, for the year 1937 made public today reveals that operating revenues increased \$14,508,320, or 3.3%, while operating expenses advanced \$23,873,592, due to higher wage scales, advancing costs of materials and fuel, and heavier expenditures for equipment and road-way maintenance in the spring and summer when traffic was moving in heavier volume.

Freight revenues increased 24% and passenger revenues 6% for the year. The net railway operating income of \$72,000,927 represented a return of only 2.8% upon the investment in road and equipment.

President Martin W. Clement, in an accompanying statement to stockholders, stressed the need for a constructive national transportation policy as one of the most important problems confronting the country.

Renee Carroll Is Hat-Check Queen

Is Rated As Tops In Profession By Late O. O. McIntyre, Columnist

CEILING'S FALL BRINGS ON SQUALL

One of the last of O. O. McIntyre's columns, written shortly before his death, follows:
NEW YORK—Manhattan's oldest saloon is Billy's at 50th street and First avenue. It remains as it was when the original owner tapped the first keg more than 50 years ago. His son and grandson are now in charge and live upstairs, just as he did.
Billy's is strictly a neighborhood place. Folk bring buckets and pitchers to rush the growler as in the long ago. Over the side door is the familiar "Family Entrance." Gas

O. O. McIntyre flicker and there's a mammoth old brass-lined ice box. Over in a corner shirt-sleeved regulars play seven up.
Karl Kitchen discovered Billy's and as a result of his write-up a lot of the Sutton Place boys with police dogs and berets began dropping in just for heck of it. But Billy's is not susceptible to the flattery of the hoity-toity trade. There is an impression it prefers catering to its own.

The Phil Stongs novelists, go there, but not as celebrities. So do Walterson, Rotacker and others whose identities mean nothing to the management. The familiar malted naps before the huge base-burner and there is the bandy-legged "boy" of all work, whose age is indeterminate.

Renee Carroll continues in the role of queen of the hat-check girls, a sobriquet Broadway bestowed a dozen years ago. Red haired, vivacious, born Shapiro, she has done right well by herself as concessionaire at Sardi's, which has a mixture of theatrical and press agent clientele. In exchange for gay banter and that cherished accolade not passing out redeeming checks to the

right people—she probably gets as steady a flow of tips as anyone. First and foremost of the professional hat checkers were the three Susskind brothers, alert youths who began hat-checking at the Astor. They finally took over the privileges and extended them to almost every hotel and restaurant in the city. For a time each was rated a millionaire.

Note on high art: Nothing looks so flat and forlorn as a soufflé that doesn't, as Hanque Sell puts it, "soil." At one of the bang-up banquets the other evening three soufflés escaped on way from kitchen to table. Finally the headwaiter, interpolating his despair with a few Willie Howard shrugs, suggested something else be ordered. He confessed that the pastry cook had finally tossed a tantrum and was forced home in hysteria.

It isn't often a temperamental head chef goes berserk before diners but it did happen one dinner time at Delmonico's on the avenue. The heavily chandeliered room was loaded with distinguished guests—August Belmont, Harry Lehr, Whitney Warren, John Drew, among others. There was a sudden Comanche whoop from the kitchen, and through the pantry door rushed The Great One, rolling his eyes and beating his chest. He delivered a harangue in Italian on food in general and stuffed Egyptian squab in particular. He had just superintended the cooking of a huge platter of squab when a section of ceiling fell on it. It was too much for an artist.

Thingumbobs: Dr. Daffoe's bill to the Dionne family for delivering the quins was \$10. . . . Bob Reid, the press agent from Hickory, N. C., always sees Garbo off for Sweden. A platonic friendship . . . Harry Staton, syndicate chief, has not missed a circus opening in 15 years . . . Frank Case's son Carroll is the dramatic editor of the new Judge . . . Deems Taylor, for relaxation, reads histories of music.

Home made musing: I often wonder if the country doesn't need to hire someone who keeps a ledger like an old Vermont store keeper, up in the maple syrup belt. A crusty old codger who calls a spade a spade, isn't interested in new fangled improved notions and will not try to convince one a wintry landscape is the vista of a South Sea Isle. Everybody talks. Nobody says word. And so few are recognizing that sound principles never change. (Copyright, 1938, McNaught Syndicate Inc.)

Sitting in court room number two listening to the questions asked prospective citizens by the natural-

ization examiners one sometimes wonders if every citizen could answer them. Most of the questions bear on the form of government we enjoy, how laws are made, who the president is and the governor of the state. One question being asked is this, "In the event the United States went to war would you take up arms in defense. Invariably the answer is yes, although in some cases the applicants are far beyond the age when they could serve in active military service.

The proposed "battle of the century" the shooting contest between Deputy Controller Andrew M. Dodds

and the Deputy Sheriff Thomas O'Brien has reached the vocal stage. Charges, counter charges, claims and rumors are thick around the court house. O'Brien fans claim that Dodds couldn't hit the inside of a barn with a handful of buckshot and point to an episode at the Pyramiding Dam. Dodds is supposed to have gotten out on a stump for a shot at a wild duck and the only thing he hit was the water when the gun knocked him off the stump backwards. Dodds' supporters claim the only thing O'Brien ever shot was a farmer's goat one hunting season, mistaking it for a mountain goat. In the meantime the odds are even, neither side wanting to give odds that their man is the better shot.

A rather unusual situation has arisen in the matter of payment of former Sheriff Edward D. Pritchard

and Sheriff M. M. Ingham for their services as coroner. County Commissioner Frank W. Hill is not certain that the law provides for the payment of fees to them while acting as coroner and for the present at least, payment of the fees is being held up.

Under the law when a vacancy occurs in the office of coroner, the sheriff takes over the duties until such time as a successor is appointed by the governor. The law says the

sheriff "shall" take over the duties which makes it mandatory. Hill's position is that the law makes no provision for paying the sheriff, but it is the principle of the thing that Hill is standing upon. His solicitor Attorney Ralph Cooper is looking into the law and there is a possibility that the matter will wind up in the courts.

In the total of \$24,391.83 spent for general purposes by the county in January there are many many items listed. For the commissioners office \$1561.30 was spent of which all but \$1630 was for salaries. For court house maintenance \$4497.92 was spent. Salaries amounted to \$473.95. Janitor's supplies \$50.67, soaps and cleaners, \$3.45, hauling ashes 50 cents, gas, water and electricity, \$196.45, coal \$106.25. For the recon-

struction work which was done \$3,251.01 was spent. The registration office cost was \$302.45. Bond premiums for the county treasurer amounted to \$1114.44. Courts cost amounted to \$2,963.47, which does not include the salaries of the judges which are paid by the state. This includes jury commission costs, tip-staves, jurors, stenographers, postage, witness fees and many other charges. Penal institutions costs \$1,239.93, the county jail \$413.37, sheriff's office \$1761.05.

Law Providing 44-Hour Week For Women Remains In Effect

Not Affected By Injunction

So Announces Secretary
Bashore Of Department
Of Labor And
Industry

LAW FOR MEN IS INOPERATIVE

HARRISBURG, Feb. 17.—Men were outside 44-hour week working limitations today by court injunction, but Secretary of Labor and Industry Ralph M. Bashore declared emphatically enforcement of the similar law for women would continue.

More than a million male workers were affected by the preliminary injunction granted yesterday by the Dauphin county court halting enforcement of the hours limitation for men. Speaking for the injunction, granted to C. W. Miller, Perry county grocer, Bashore said: "This means that there is no limitation on the hours of work for male employees while the injunction is in force."

"I want it definitely understood that this injunction does not apply in any way to the women's 44-hour law which became effective September 1, 1937."

The Department of Labor and Industry will continue to strictly enforce provisions of the women's 44-hour law.

Both acts were passed by the 1937 legislature, but the law for men did not become effective until December 1. Bashore then allowed employers one month's grace to comply with the act for male workers.

Miller's taxpayers' suit, upon which a summary judgment was ultimately to be brought, followed filing of an original test action against the general 44-hour law by the Holgate Brothers Manufacturing Company of Kane, Pa. More than 700 firms later intervened in the Holgate action. Hearing of testimony for the state continued in the original suit concerned.

Mr. and Mrs. Wilbur Patterson and daughter Dorothy were New Castle shoppers on Saturday.

The Old Miller hotel recently purchased by the Pennsylvania railroad is being torn down and cleared away.

Mr. and Mrs. Dale Avery, of Erie, Pa., visited Mr. Avery's parents, Mr. and Mrs. N. E. Avery, a few days last week.

Mr. and Mrs. Wilbur Patterson entertained Rev. Neill of Bethel church at six o'clock dinner Tuesday of this week.

Mr. and Mrs. Charles Imboden and family of East Palestine were guests at the home of Mr. and Mrs. M. O. Imboden on Sunday.

Mrs. N. E. Avery was taken to the Salem hospital on Thursday for observation. Mrs. Avery has been suffering for some time from gall stones.

LOCKERS IN HOME

The lockers in the schoolhouse in which the children keep their things struck one housewife as a grand idea. She looked about until she found some unused space under the stairway and with the help of her husband, converted it into six sizable lockers, one for each of the children. Each locker has the child's name on it.

Board Starting Work On Budget

School Board Members Have Regular Session On Wednesday Night

ROUTINE MATTERS GET CONSIDERATION

Ordinary routine business of the New Castle school board was cleaned up early at the regular meeting Wednesday night but the budget committee remained after adjournment and started its work up on the preparation of the annual budget.

For the next few weeks the committee will hold a number of meetings and on March 1 a special meeting of the board will take place for tentative approval of the document. It is thought by members of the budget committee that the levy can be held at the same rate it was for the current year, 18 mills.

Rent Auditorium

Attorney George W. Muse and Jas. Hinsh appeared before the board Wednesday night and asked for the use of the senior high school auditorium on April 21-22 for the presentation of the play "Candlelight by the Theatre Guild. The play is for the benefit of the convention fund of the B. F. O. E. 69 and will go towards defraying part of the expenses of the convention to be held here in September. The board granted the use of the auditorium. The request of Mary Elizabeth Subor for use of the auditorium for a dancing school presentation sometime in the near future, was also granted.

Four men of the Croton district headed by Harry Blane appeared and presented a petition signed by residents of Croton asking that Mrs. Cynthia Alexander be employed as a teacher in the Croton school.

Authority was given the athletic council to appoint Robert Stewart in charge of athletic equipment for the senior high school. These duties were formerly handled by Ralph Gardner but will be taken over by Stewart.

City's Boys To Build Bird Houses For Parks

If a contest announced today for New Castle boys brings its desired results, New Castle's several parks will be stocked this spring and summer with attractive bird houses. City Forester Owen Penfield Fox declares that many are needed.

The Knights Templar chapter of the Palanx fraternity at the Y. M. C. A. will sponsor a bird house-building competition for boys up to 16 years of age—and winners will get prizes. The Palanx group is organizing plans for the contest and Mr. Fox and competent aides will decide on the prize houses.

All Boys Are Eligible.

Schools and Boy Scout troops and other boy groups will be urged to construct houses. General Secretary R. L. Meermans of the "Y" said. Entry forms will be distributed shortly, and they may be had at the Y. M. C. A.

It is hoped the contest will be over by March 20.

When judging is completed, all the houses will be put on public exhibition in the "Y" lobby.

One provision, Mr. Meermans emphasized, prevails in the contest. And that is that every boy must agree, before entering, to turn over the house he builds to Mr. Fox for placement somewhere in the park system. The contest aims first of all to fill the need which the city has spoken about.

Four classifications—one for boys up to 10, one for those up to 12, and one for those up to 14 and another for youths up to 16—will be open. Winners in each classification will be awarded prizes.

Fred Freese Heads Job.

The Knights Templar group has named Fred Freese to be general, and assistant to racket busting Chairman of the contest and has assigned Tom Huston, Russell Lane, and Joe Gill to handle publicity; Bill abandonment bureau and the Anthony, Bob McNeill and Frank declined bureau.

Messages Sent To Governor Earle

ELLWOOD CITY, Feb. 17.—The Merchants Division of the Chamber of Commerce sent out some 85 messages today to Governor Earle which informed the governor that the merchants of Ellwood City were jubilant over the announcement that Pennsylvania would put on an extensive campaign to obtain new industry.

Secretary Denny Schill of the Merchants Division said this morning that every message sent to the governor informed him that in order to obtain new industry and hold that which we already had there must be a decided reduction in the various corporation taxes and certain taxes must be abolished altogether. Just trying to advertise the natural resources of Pennsylvania without reducing the high corporation taxes wouldn't be worth the money spent on the campaign was also included in the messages.

This industry campaign for Pennsylvania was just launched yesterday and it is believed the first community comment on it came from this city.

Office Topped By Hot Finish**Victory Ties First Place Lead With Inspection As Second Round Ends**

ELLWOOD CITY, Feb. 17.—In no uncertain manner the stellar Hot Finish five of the Shelby basketball league defeated the Specialty-Office 56 to 35 on Wednesday night at Shelby court to tie-up the second round lead with the Inspection team.

Both the Hot Finish and Inspection have dropped one game this round and a play-off will be necessary to determine the champions. The Hot Finish won the first round title, and they will fight to maintain their top place position.

Alex Ruback and Johnny Ursu led the Hot Finish attack, scoring 17 points apiece. Ruback made eight baskets and one foul and Ursu counted seven and three fouls. In the first period the Hot Finish piled up a 25 to 8 lead and never was in danger of being surpassed during the balance of the game. Four O'Flies players, Tomei, Zapadka, Salerno and Follett, each made triple shots.

In the second game the Cold Draw headed the Mechanical quintet 33 to 25. Throughout the first three quarters the score was nip and tuck with the Mechanical leading 24 to 23 at the end of the third chapter. Unfortunately for team in the last stanza, they failed to tally a single point while the Cold Draw forced ahead 10 points, turning the affair into a victory.

Barnes with 15 points, was high for the Cold Draw and Demark was high for the Mechanical.

Saturday night, the first games of the third round will be played with the Inspection slated to meet the Cold Finish and the Hot Finish meeting their keener rivals, the Specialty-Office. A dance will follow these games.

Butler To Play Here On Friday

Final Game Of Section Three Here Friday Night; Three-Way Tie Looms

There is a lot of possibilities behind the final game of the Section Three basketball league here Friday night that finds Butler high coming to Washington high floor to oppose the New Castle high quintet. The first game will have the reserves of both schools playing, and will start at 7 o'clock.

If New Castle defeats Butler and Aliquippa trips Ambridge, there is going to be a three-way tie for the sectional title, Ambridge, Aliquippa and New Castle. This will necessitate a series of two playoff games to determine the championship. Of course, if Aliquippa blows up and Ambridge wins at the "Quipplan" floor Friday night, the Rubenstein-ites will have the little old pennant all sewed up.

Aliquippa In Race
Aliquippa high kept in the Section Three race last Tuesday night by topping New Brighton high 35 to 21. Had New Brighton won the Lippencen would have been out of the race.

Head Coach Phil Bridenbaugh, disheartened by the 30 to 20 defeat at Beaver Falls last Friday night, will have his Red and Black clad players at top speed to upset the Butler. And by the way, Butler trimmed Beaver Falls 28 to 24 last Tuesday night, so look out New Castle.

Faculty Manager Ralph H. Gardner believes that the playoff games, if necessary, will be at the Beaver Falls high gym floor. This is only conjecture, however, on the part of the popular faculty supervisor of athletics.

Fast Games In Church League

Central Presbyterians, First Christians And Tifereth Israels Win Games

Three fast games were played in the New Castle Church league at the "Y" floor on Wednesday night. The Central Presbyterians defeated the First M. E. in the opening game 28 to 27 in one of the best played league battles of the year.

Louie, Lockley and "Flash" Gordon were the stars of the game. In the second all the work of Davies, Woodcock, Stevenson and Hughes gave the First Christians an overwhelming victory over the First Presbyterians 52 to 20. Tommy McCormick was the best for the losers. In the third and final game the Tifereth Israels made merry with the Highland U. P. team 40 to 27, with the Solomon brothers, along with Ballimore, doing the bulk of the scoring.

HERE AND THERE IN SPORTS' LAND

Allegheny college lost to Buffalo college in Buffalo last night in a nip and tuck basketball game by a margin of one point, the score being 46 to 45. It was not until the closing seconds of play that Buffalo was able to put the game on ice which broke a long losing streak. The tie duplicated last season's victory when the Bulls came from behind to win by one point. At no time during the game were the teams separated by more than a few points. Shaffer, forward for Allegheny was high scorer with 19 points. St. Francis defeated Juniata 29 to 21, in Huntington and Glenside won their twenty-ninth victory in Glenside, when they beat Concord State Teachers 71 to 55.

Although they succumbed before Princeton several weeks ago Point State grapplers have shown sufficient improvement to indicate the Lions have a fine chance to successfully defending the Eastern intercollegiate championship next month. Carl Kintz, 118, the Craighthead twins, who alternate at 126 and Bobby Reynolds, 135, look very good in action these days.

VOLLEY BALL GAME

There will be a volley ball game at the "Y" tonight in which the Army will play the Notre Dame team. The game will start at 7:15 o'clock. All players are asked to be prompt in reporting.

Helen Wills Moody Will Again Try For Title At Wimbledon

International News Service
SAN FRANCISCO, Feb. 17. Helen Wills Moody, former queen of the tennis world, will come out of retirement once again and seek her crown Wimbledon championship in England this summer, friends reported here today.

Mr. Moody once before came back in 1933 to win the Wimbledon championship after she had retired from active play in 1933 because of a sprained back.

Mrs. Moody believes she can again turn the trick and beat the current crop of women players.

She fears the Polish M. J. Jadrington and Glenside won their twenty-ninth victory in Glenside, when they beat Concord State Teachers 71 to 55.

TWO GAMES AT FALCON HALL

Two games will be played at the Falcon Hall on Miller avenue tonight. The first game at 7:30 o'clock will take the St. Nicholas team into action with the Ambrose Fantastics. In the second game the Falcons will meet the fast Ford Cup Falcons. Coach Henry Kozzola will send his team after another victory in the present winning streak.

KEIS-BOAK WEDDING

TAKES PLACE SATURDAY

DAUGHTERS OF 1812

ANNOUNCE DELEGATES

A quiet wedding ceremony took place Saturday afternoon in the First Presbyterian church, when Mary Louella Keis, daughter of Mr. and Mrs. Harry Keis of Westford, Crawford county, became the bride of Charles Everett Boak, eldest son of Mr. and Mrs. J. Andley Boak, Slippery Rock township.

The vows were exchanged at 3 o'clock in the presence of the immediate families and a few intimate friends of the couple, with Dr. J. J. Melvane, the bride's pastor, officiating. He used the single ring service.

For her wedding, the bride was attired in a white chandley lace creation, made floor length, with matching accessories. She carried an arm bouquet of tea roses and gypsophila. The couple had as their attendants, Mr. and Mrs. Francis Boak, the former a brother of the groom. The matron of honor, selected a Windsor blue lace gown, also floor length, and her arm bouquet was of yellow jonquils and gypsophila.

The bride is a graduate of the Westford high school and received her diploma from the Chicago School of Nursing. For the past two years, she has been employed as professional nurse at the Secler home, 202 North Jefferson street.

The groom, a graduate of Princeton high school, is associated with his father and brother on the Boak Farms, as business manager.

Mr. and Mrs. Boak departed immediately afterwards for a wedding trip to Florida. Enroute they will visit many places of interest, returning to New Castle the middle of February. They will take up residence at the Boak home in Slippery Rock township.

William Reed, of Grandview avenue, is able to be out today following an illness.

Don't experiment with Children's Colds

Relieve Their Misery This Proved Way

WHEN your child comes down with a cold, you can't afford to take needless risks. Use the treatment that has been proved by every VapoRub package. It has been proved by everyday use in more homes than any other medication of its kind—further proved by the largest clinical tests ever made on colds. (Full details on every VapoRub package.) Only Vicks give you proof like this.

Vicks VapoRub is direct external treatment. There's no dosing—no risk of spoiling appetite, or disturbing delicate digestion. VapoRub can be used freely, as often as needed, even on the youngest child.

You simply massage VapoRub on throat, chest, and back (as illustrated).

Then—To make its long-continued double action last even longer—spread a thick layer on the chest and cover with a warmed cloth.

No Long Waiting for Relief to begin...

Almost before you finish rubbing, the youngster begins to feel warm and comfortable as VapoRub goes to work direct through the skin like a poultice. At the same time its medicated vapors, released by the warmth of the body, are carried direct to the irritated air-passages with every breath.

This double action loosens phlegm—relieves irritation and coughing—helps break up local congestion. And long after the little one relaxes into restful sleep, VapoRub keeps right on working—hour after hour. Often, by morning the worst of the cold is over.

"YOU CAN'T EXPECT ORDINARY SOAPS TO PROTECT YOU FROM 'B.O.' AS LIFEBOUY DOES"

SAYS

E. C. SHERMAN, Buffalo salesman. Relates sad experience with ordinary soap

"I MADE THE MISTAKE OF THINKING A BATH WITH ANY KIND OF SOAP KEPT ME FRESH FOR MY DAILY CONTACTS"

"IMAGINE THE JOY I GOT WHEN A FRIEND SUGGESTED THAT I USE LIFEBOUY FOR MY DAILY BATH..."

"I REALIZED LATER THAT YOU CAN'T EXPECT ORDINARY SOAPS TO PROTECT YOU FROM 'B.O.' AS LIFEBOUY DOES..."

"NOW I NEVER MISS THAT LIFEBOUY SHOWER!"

Just you try bathing with Lifebuoy for a week—and you'll be one of the millions who just wouldn't "miss that daily Lifebuoy bath." The chances are you'll never go back to ordinary soap.

For no ordinary soap steps "B.O." as Lifebuoy does. No ordinary soap gives you the same pepped-up, extra-clean feeling Lifebuoy does. And you are extra clean, you know. For Lifebuoy contains an exclusive purifying ingredient not in any other popular

bath or toilet soap. Use Lifebuoy for your complexion, too. Its gentle lather will help clear, freshen, bring out your skin's natural loveliness. Lifebuoy is by test more than 20% milder than many leading "beauty" and "baby" soaps. Get the Lifebuoy habit—for bath, for complexion and for hands! Remember, the germs of 27 or more diseases may be spread by hands alone—and that Lifebuoy's purifying lather removes germs as well as dirt!

More women, men and children bathe with Lifebuoy than with any other soap

Many Members Of Cooper Family In Florida For Winter

Family Reunion Of Lawrence And Butler County Residents Held At St. Cloud

One of the largest groups from any one family wintering in Florida this year is probably that of the Cooper family, from Lawrence and

Butler counties, who are staying in St. Cloud. Around the first of the year, Harry W. Cooper and family, who have been spending their winters in St. Cloud for a number of years, arrived in St. Cloud after a tour of the southwestern states. A family gathering was held, which included two brothers of Mr. Cooper, Ralph and Howard, and on that day another brother, Port and his family, with their father, M. C. Cooper, of Jacksonville, put in their appearance. The combined Cooper families now gathered at St. Cloud number twenty.

WASHINGTON AT A GLANCE

Supporters Of Peace To Fight

Plan Reprisals At Polls As A Result Of Defeat Of Ludlow Bill

ISSUE APPEALS DEEPLY TO MASSES

Central Press Washington Bureau 602 Times-Herald Bldg.

By CHARLES F. STEWART Central Press Columnist

WASHINGTON, Jan. 17.—Supporters of Representative Ludlow's recently stymied war referendum plan perhaps do not altogether entirely threaten reprisals at this year's congressional primaries and on election day, against lawmakers whose votes dictated the Indiana legislator's resolution in so far as the present session on Capitol Hill is concerned.

The Ludlow proposition is understood, has been the focus of a deal of popular interest throughout the country.

Washington statesmen generally agree that the volume of mail and telegrams they have received, relative to it, from their constituents has been something unprecedented. They also agree that about 90 per cent of these communications have been pro-Ludlow.

HAS MASS APPEAL

The idea evidently has mass appeal in short. It is emotional in its nature, and plenty of folk are very emotional. Politicians know it.

So, if Ludlowites use their issue to advantage in the coming campaign, it is quite believable that they will score considerably by it. They show a disposition, too, to use it, for all it is worth.

It is conceivable that quite a few congressional seats will be changed in this fashion, which worries incumbents decidedly.

LUDLOW'S CONTENTION

A good bit of technical detail is involved in the situation.

The president of the United States cannot declare war, but his management of foreign affairs can be such as to make war practically inevitable. Then he must ask congress to make the actual declaration, and congress can do it.

Representative Ludlow contends that even congress should not be permitted to do so without an affirmative vote by all the people.

AMENDMENT NECESSARY

But the establishment of such a rule calls for a constitutional amendment.

Amendment of the constitution can be suggested by no less than a two-thirds congressional ballot, after which three-quarters of the states must approve the suggestion. Generally speaking it is a mighty hard job to get these successive two-thirds and three-quarters majorities.

KEPT BOTTLED UP

Nevertheless, Representative Ludlow, introduced his resolution—to

see whether he could not get the initial two-thirds congressional majority.

His resolution, was referred to the representative's judiciary committee. The judiciary committee did not want the scheme voted on by the whole house of representatives. The committee realized that the resolution was unlikely to be adopted, two thirds. The committee members were afraid, however, that the thing would get a big vote—possibly a majority, though not a two-thirds majority. Being hostile to the whole program, the committee members wanted no such strong showing made.

Therefore, they kept the resolution bottled up "in committee." It was not beaten, but it was quiescent.

EXPLAINING THE VOTE

There is one way by which a committee can be forced to disgorge a measure it is trying to smother. Two hundred and eighteen representatives must sign a petition to bring that measure to the "floor," and then a majority (not necessarily a two-thirds majority, but a bare majority) must insist on indorsing the 218's request.

Ludlow got the required 218 petitioners.

But, afterward, it was necessary for him to get a majority in favor of having his resolution voted on. Meanwhile, some of his 218 petitioners had acquired "cold feet."

He lost, 208 to 188.

There was not a 208-188 vote AGAINST his resolution. The vote was 208-188 against voting on it. It was not a bad beating.

HARDLY POSSIBLE

Not that I think the Ludlowites can get their constitutional amendment adopted.

But they may change some congressional seats while they are trying to do so.

Pacifists are nutty certainly. I'm one of them.

Brookville Has Blind Burgess

Believed To Be Pennsylvania's First Sightless Burgess In Office

(International News Service) BROOKVILLE, Pa., Jan. 17.—Harold W. Thompson, 35, is believed to be Pennsylvania's first blind burgess.

Thompson, elected at the last election, took office January 2. He defeated the Democratic nominee, Archie J. McMurray son of a prominent local Democratic family.

Thompson told the voters he was not trying to become a borough pensioner nor was he running on a "sympathetic" ticket. He said that blindness was a physical handicap but did not interfere with the mentality.

When Thompson was a child he was blinded by an arrow shot into his right eye from the bow of a playmate. His other eye later became sightless.

He received his first training at home and later attended Western Pennsylvania school for the blind of Pittsburgh.

After being graduated from there he attended the University of Pittsburgh for two years.

He reads much by the Braille system and has the ability to use as a Braille interpreter in court actions. This was partly the way he supported himself after leaving school. He also wrote for magazines and taught other blind persons the Braille system.

He is an able typist.

Nearly \$5,000,000 Given For State Aid

Estimated 150,000 Needy Aged Persons Blind; And Dependent Children To Benefit

By ARTHUR C. WIMER (Special Washington Correspondent New

WASHINGTON, D. C., Jan. 17.—An estimated 150,000 needy aged persons, blind persons and dependent children are being aided with \$4,482,824 just donated the state of Pennsylvania by the Federal Social Security Board.

The Federal plan is to help finance social security programs in the Keystone State. Of the total \$3,321,705 was for the needy aged; \$498,452 was for blind, and \$663,295 was for dependent children in the state. Under this program in the state, 96,000 aged, 11,000 blind, and 43,200 needy children are receiving aid, the Security Board estimates.

In addition to this money, the Board has also turned over to Pennsylvania \$878,553 to help finance activities of the state employment service in connection with unemployment compensation during the first quarter of this year.

Letters of administration have been issued to various persons by Register and Recorder Orville Polter. They follow:

Letters testamentary to Homer C. Drake as executor in the estate of Robert Hays late of New Castle who died January 4, 1937.

Letters testamentary to Charles Freeman as executor in the estate of Mary Miller Freeman late of New Wilmington.

Letters testamentary to Lina Woods Rhodes as executrix in the estate of Parent J. Tidball, late of New Castle, who died December 15, 1937.

Letters testamentary to T. C. Post as executor in the estate of Joseph P. Penner late of New Castle, who died January 1, 1938.

Letters testamentary to C. W. Fenton as executor in the estate of Harry Whiting, late of Mahoning township, who died January 1, 1938.

Letters testamentary to Stephen Skuba, Jr., as executor in the estate of Stephen Skuba, Sr., late of New Castle, who died December 29, 1937.

Letters testamentary to Lydia A. Skubis as executrix in the estate of John H. Jemke, late of Big Beaver township who died November 27, 1937.

County Controller Frank W. Hill has compiled a list of the county taxes paid by the municipalities of the county in the year 1937. The totals include county and poor taxes. The City of New Castle paid \$347,324.45 in abated taxes, that is with the discount, and \$328,367.27 at face value. Millwood City paid \$58,565.59 at the abated rate and \$3,434.09 at face. The other boroughs of the county paid \$32,163.19 at the abated rate and \$1,550.56 at face. The townships paid \$97,352.38 at the abated rate and \$10,951.33 at face.

The juvenile and parole officer, J. W. Dunlap paid into the county in 1937, \$18,628.10 in various returns according to Mr. Hill's report. This includes fines and costs, support for minor children, wives and parents. The total paid into the county treasury by the Register and Recorder for fees received was \$12,070.50.

The sheriff's sales for February

will be the smallest in number in the past six years. Only eight sales are listed for Sheriff M. M. Ingham to conduct, but of these one sale has eight parcels of land in some months in the past four years the total has been as high as 65.

Sheriff M. M. Ingham has received a card asking for aid in apprehending Norman Smith who is alleged to have committed a triple murder in Ohio. One of the Mahoning county deputies was at the county jail in the past two days looking over prisoners on the chance that Smith might be among them.

Another good horse shaver has put aside his apron and hammer. Square C. L. Zedaker the Sage of New Bedford was in the court house on Saturday and announced that he is through with shoeing horses. After 55 years of tying on sandals and pumps on nags he is done. One of the horses he was shoeing recently got out and tramped him for a five yard loss. He got up from the loss, took off his apron and said he was through. For the rest of his years he will dispense justice in Putaski township without any horseshoes.

Many returns are being received by Registration Chief Clerk Thomas E. Edmunds from people who voted from the wrong address in which they rectify the record. Those who have not voted for the past two years are not re-registering very rapidly and unless they do re-register they will be out of luck at the next primary.

Louis Contends Tommy Farr Will Defeat Braddock

Henry Armstrong Will Probably Meet Barney Ross For Welter Title

OTHER NOTES OF BROADWAY INTEREST

By PAT ROSS

NEW YORK, Jan. 17.—These are controversial days along Bash Boulevard. Is the New York rule the bunk or not? Is the new symple rule, okay or not? Can Jim Braddock lick Tommy Farr or not? Will the U. S. L. T. A. recognize open tournaments or not? Is Jimmy Johnson all washed up as a boxer star or not? Does Danny Dean deserve a 15 grand out or not? And will Henry Armstrong soon get out of guys to knock over or not? Old Professor Bill McCann has the answer to the last one. The crowd was always willing to turn out for Jack Dempsey no matter whom he fought. Scurry observes the professor, and he had only one class to fight in. Henry has three feather, lightweight and welter.

Armstrong Vs. Ross. And our Cleveland operator advises that fat Eddie Made will sign up in a day or two. For Armstrong to defend his feather title, under Jack Keating's promotion, in Detroit late in February, and that Eddie expects to square Lou Ambers for the time being, and let Armstrong battle Barney Ross, for the welter title, in Chicago in March.

Henry fought 28 times last year, but he won't go to the wars more than once a month this year. Every so, he should make about \$200,000 for himself, which will buy him plenty of pork chops.

And Joe Louis thinks Farr is a cinch to lick Braddock, but Joe's manager, Julian Blackburn, picks Braddock to win.

And Eddie (Giant) Brannock will bet you a suit of clothes to a hat that every player in both leagues will be signed up when the season opens, including Dizzy Dean, and it's a 100 to 1 bet that \$10,000 after Branch Rickey made to Dean is only a basis for argument, with Ole Dizzy winding up eventually with something close to the \$20,000 he expects.

Millers Win In Ice Hockey Game

The Millers Lake sextette defeated the Mahoning A. C. ice hockey team Sunday at the latter's rink 5 to 3. The game was clean and hard fought in every period. Neither side lost any time in the penalty box.

The lineups:

Millers: Pos., Mahoning; P., Coulter; L.W., Bumbaugh; E. Manning; R.W., Russo; C. Downing; L.F., Orlando; W. Spigler; R.F., Shoup; Hibbard; C., Calver.

"Red" Downing, Evans, Games may be tied with the Millers by calling 1929-W and asking for Ed. Manning.

Villanova To Meet Titans On Tuesday

(Special To The News)

NEW WILMINGTON, Jan. 17.—The Westminster Titans will meet their toughest test of the year when the Villanova Wildcats play on the Titan floor, Tuesday night, Jan. 18. Last year the eastern Pennsylvania team defeated the Blue and White 27-10 at Villanova.

Captain Washburn's Titans have won three and lost two for the season, defeating Kent State 58-29, Slippery Rock 53-40, and Bethany 68-40, and have lost to Tech, 43-50, and Geneva, 35-27.

Most dangerous scorer for the Wildcats is Jim Montgomery, Ohio center, who prepped in Southern California, where he led the scholastic circles in scoring. In 1936-37, Montgomery was high scorer for Villanova. He is tall and rangy, weighing 180 and standing six feet two. Following him closely in bucket-sinking is "Duke" Dzwinski, six foot New York City sophomore, a dan-

gerous shot from all parts of the floor, who scored 21 points against Rider.

With eight men above the six-foot level, and five cagers weighing over 180, the Wildcats will put on the Titan floor a heavy, tall, aggressive group of basketweavers, who in the 1936-37 season defeated such teams as Duquesne, City College of New York, St. Johns and Bucknell.

The Titans will still be without the services of Ken Grubb, Youngstown Junior and high-point scorer for 1936-37, but Paul Backus, Ohio center, troubled with a sprained knee, will be in good condition for the game. In the Blue and White starting lineup will probably be Gil-land and Demo, forwards; Backus, center, and Krivos and Miller, guards.

Gradually transposing their zone-defense into a man-for-man type, the Titans will present a new and individualized type of offense and defense against Villanova.

Beaver Falls Here Tuesday In Loop Game

New Castle High Will Try Hard To Stay In First Place

New Castle high school basketball team will try hard to retain first place in the Section Three W. P. I. A. L. race Tuesday night when the fast Beaver Falls high team will play here. The reserves of both teams will play at 7 o'clock in the preliminary battle.

Beaver Falls has yet to win a league game, and it may be that they will snap out of their slump here tomorrow night. New Castle has defeated Aliquippa, Ellwood City and Ambridge and lost to New Brighton. Beaver Falls has lost to Aliquippa, Ambridge and Ellwood City.

Lineup Stands

Head Coach Phil Bridenbaugh is rather well pleased with his starting lineup at the present time, with Kocera and Kreska at the forwards, Strausbaugh at center and Sierock and Carey at the guards. This is the lineup that made the "Quips" like it the other night. Marvin and Bombyk are a pair of two very capable reserves to have around.

New Castle is now sharing the sectional lead with Ambridge, but can go ahead Tuesday if they win at Ambridge will be idle.

Union-Bessemer Battle Tuesday

Section 21 Circuit Swings In Action Again On Tuesday Night

Featuring Tuesday's basketball attraction in Class B circles will be the Bessemer-Union basketball contest carded for the Bessemer floor.

Union leads the Section 21 race as a result of a victory over New Wilmington while Bessemer was losing to Wampum. A victory for Bessemer will deadlock the sectional race. Wampum high will have to defeat New Wilmington to keep pace. The college towners play at Wampum.

Three fast games were played in the Older Boys league at the "Y" on Saturday night with the First U. P. team handling the F. J. Nolte Co., a 23 to 22 defeat. Clark, McGarry, Alexander and Parsons did the starring.

Farr-Braddock Battle Friday

Davis J. Walsh Picks Farr To Upset Former Heavyweight Champion

SEES FARR AND LOUIS IN RING

By DAVIS J. WALSH

NEW YORK, Jan. 17.—I hereby announce that Tommy Farr will fight for the heavyweight championship again next September.

Nobody likes Farr. Actually, the fellow has something on the ball personally, which convinces me that he might very well be a man of destiny. For further reference, I would commend you to Mr. Gene Tunney, who couldn't fight "too much, but just good enough to beat the world heavyweight champion, Joe Jack Dempsey.

On Friday night Farr will meet James J. Braddock. On Friday night James J. Braddock, the former champion, will be in the ring with Farr. I provided he can get used to those strange freaks in the former champion's tactics in the early rounds and not be too concerned by same. Mr. Braddock by now has the spread-legged technique. Mr. Farr—virtually a flurry of gloves from first to last—can punch that kind around. Therefore, the result of Friday night's bout would seem to be more or less obvious.

Will Meet Baer

Now that we have disposed of Mr. Braddock, one ex-champion, we will move on to Mr. Max Baer, another ex-champion, the point being that inasmuch as Farr has whipped Mr. Braddock as of next Friday night, he gets Mr. Baer a few weeks hence. In the latter connection I need only remind you that only a few months ago Farr had Mr. Baer stepping in holes, blacked his eye and annoyed him to no end in winning a one-sided decision. That ought to settle the matter.

The whole thing proves only one thing—that a muddling fighter like Farr might wind up with the heavyweight championship.

However, in that connection I don't think he could beat Joe Louis, the current champion, on the best day he ever saw, nor do I think he can beat Max Schmeling, in case Schmeling should win the title from Louis next June.

But inasmuch as I've already whipped Mr. Braddock and Mr. Baer for him, perhaps he can arrange to take care of the rest of the program for himself.
